

Vasectomy Pre-Payment

Due to recent events, Capitol Urology will require payment in full for all vasectomy's prior to them being scheduled.

We will verify with your insurance as to the *estimated* amount due and this will be collected on the date you schedule the procedure.

Should you keep your scheduled surgery date and time; the estimated amount will be applied to balance after the vasectomy has been processed and paid by your insurance carrier.

If you cancel or reschedule the surgery, without a 5 (business) day advance notice, a \$250 administrative handling fee will be applied; same day cancelled or rescheduled or failure to appear for the appointment a \$500 fee will be applied. The remainder will be applied to any open balances you may have on your account. If a credit remains, a refund of the credit amount will be issued if you choose not to go forward with the vasectomy.
